EcoTimber to Donate Proceeds to Benefit “Voice of the Wetlands” Charity Gulf Oil Cleanup efforts

Denver, CO - EcoTimber, Inc. is excited to announce a third quarter promotion to raise money for the Gulf Coast crisis. Beginning July 1, 2010 through September 30, 2010 a portion of all EcoTimber proceeds will be donated to the **Voice of the Wetlands** (www.voiceofthewetlands.org) as they assist in the massive efforts to clean up the oil spill along the nation’s gulf coast.

EcoTimber continues to maintain a culture that is committed to preserving our nation’s natural environmental resources and they are proud to contribute towards this effort to rescue our nation’s gulf coast wetlands. For more information regarding these and other environmental initiatives, please visit our website at www.ecotimber.com.

About Voice of the Wetlands

Voice of the Wetlands was established in 2004 as a volunteer-based non-profit, focused on driving awareness and developing educational outlets/programs about the loss of the wetlands in southern Louisiana. VOW was started by musician **Tab Benoit** who was born and raised in Houma, LA - one of the communities born of the wetlands. Tab along with Rueben Williams and a coalition of local artists and business leaders recognized the urgency to save their homes and the culture of southern Louisiana. Voice of the Wetlands takes an active role in driving awareness to restore the wetlands from a local to a national level. The organization prides itself in maintaining a mission that addresses all aspects, causes and solutions.

Tab Benoit was also recently honored by the State of Louisiana with the Governor’s Award for “Conservationist of the Year” in 2009.

About EcoTimber

Since 1992, EcoTimber has promoted forest conservation and healthy environments by selling sustainably harvested wood and bamboo products that are completely free from added urea-formaldehydes and other harmful VOC’s. We back our products with a commitment to high quality, friendly service and competitive pricing. Our suppliers' forestry practices guarantee us a perpetual yield of high quality timber and bamboo while maintaining or restoring healthy, self-regenerating forest ecosystems. EcoTimber specializes in offering wood products from forests that are certified according to the rules of the Forest Stewardship Council (FSC) as well as reclaimed and salvaged hardwood. EcoTimber also prides itself in only sourcing bamboo

products that are harvested from natural plantations without the need to replace a bamboo forest. EcoTimber thoroughly researches its sources to ensure that we maintain the highest standards in choosing genuinely eco-friendly products that consistently exceed the expectations of our customers.

Reflecting this commitment to quality, EcoTimber was recently honored with a #1 Top Pick by Consumer Reports (August 2010) for the 2nd consecutive year.
